

Numbers speak for themselves

10 years of operation, 12 activity centers, 600 youth participants, 450 professional business volunteers, 500 alumni – the Unistream Program, “educating tomorrow’s leaders today” is making positive advances and a true impact in its field.

The Opening of New Unistream Centers:

We are delighted to announce the launch of the Unistream program in our new centers, located in the communities of Rahat, Sachnin, and Julis. We would like to thank the Ministry for the Development of the Negev and Galilee that joined hands with us on this important venture, which welcomes participants from the Muslim, Druze and Bedouin sectors into Unistream family.

WANTED

Mentors and Volunteers from the business community who speak Hebrew and Arabic For the Unistream Centers in Julis, Rahat and Sachnin

Please contact Liat Varon: 054-2373405

Unistream at its best: International Entrepreneurship Week

Within the framework of International Entrepreneurship Week the Unistream Centers hosted different activities focused on entrepreneurship, for the communities wherein the organization is active. Amongst the activities held: a social media workshop, a series of workshops on business entrepreneurship for other youth programs, and a practical seminar for small businesses and aspiring entrepreneurs.

We are proud to update you that at the official event marking the end of International Entrepreneurship Week, Unistream participants from our Or Yehuda center, were invited to present our J-MBA program. Thanks to their hard work, we gained much appreciated exposure to a very relevant crowd, and expanded our ever-growing circle of business volunteers to include new members.

Top Israeli Business people and Entrepreneurs share their dream with us

If you still have not viewed the short film “My Dream” wherein top business people and entrepreneurs tell about their childhood dream, [press here for the link](#). In creating this film, we were glad to meet great people along the way – our thanks to all the people who participated in the movie and shared their stories with us.

Unistream Bogream - The Unistream Alumni Program is launched

The special interest group, Careers & Entrepreneurship, of Unistream’s Alumni Forum held its first activity. The meeting was held in partnership with StarTau, the Center for Entrepreneurship of Tel-Aviv University, and offered Unistream alumni professional workshops conducted by top experts on a variety of topics related to career paths including: entrepreneurship, interview preparation, and job search. Tens of alumni and Unistream professional volunteers participated in the session.

Jeff Pulver, Technological Guru, visits the Unistream Center in Or Yehuda

Jeff Pulver, the Jewish-American technological guru, businessperson and entrepreneur, who founded the communications company Vonage, chose to visit the Unistream Center in Or Yehuda during his recent visit to Israel.

Mr. Pulver was very impressed by the Year 2 participants venture, the CutCake, and even wrote on his personal facebook page that the visit was amongst the highlights of his trip to Israel!

2012

Happy & Fruitful New Year to All!
